"Rob is on top of his game- fast and efficient with big ears. One of the best."

"In my dealings with Rob, he was always thorough and covered all his bases. Plus, he is incredibly easy to work with...."

— **Lance Cowan**, *Owner, LCMedia*, worked directly with Rob at Sam Band Music, Inc.

"I worked with Rob at DelFest 2009, where he was tour managing for Sam Bush. Considering a tornado hit the festival grounds during Mr Bush's set, Rob's performance was above and beyond what would be expected. He was right on top of managing people and equipment during the melee, as well as following up and making sure all equipment was found and secured once the storm had passed. He kept his head in a considerable crisis and through it all was professional and, in fact, a pleasure to work with. I would personally welcome any and all opportunities to work with him again, and can emphatically endorse him."

— **Elyce Turner**, *Artist Liaison Crew Chief, DelFest*, worked with Rob at Sam Band Music, Inc.

"I've known and worked with Rob for over 20 years on various tours. He is an excellent audio engineer and tour/production manager."

— **Dave Kuhn**, *Owner, PMD Productions Inc*, was with another company when working with Rob at Production Services

"I was fortunate enough to work with Rob while producing my first major concert. Despite my personal inexperience, I only had good experiences working with him from the moment we first spoke on the phone until the moment the tour bus pulled away from the venue. He always made time for my questions and always discussed his own concerns calmly and pragmatically. In my book, Rob sets the bar for professionalism among tour managers. He is patient, yet focused; succinct, yet lucid; and dedicated to his work, yet a delight to be around. Working with Rob not only resulted in a smoothly run show, but also undoubtedly helped me become a better concert promoter/producer as well. In addition to thoroughly recommending Rob Stokes as a Tour Manager, I hope to have the opportunity to work with him again myself soon. He is a true

professional and a calming presence altogether."

"I met Rob Stokes nearly a decade ago while working with the Sam Bush Band. Since that time he has done an awesome job running on-stage sound for Sam's band. Rob has a wealth of experience working with major artists in tour management and live sound production, mixing FOH as well as monitors. Over the past 5 years or so he has also been doing great work recording live shows with his own fully mobile ProTools studio. Rob has mixed many of these shows with absolutely great results. This experience proved invaluable when Sam asked Rob to mix his live DVD, "On The Road". In our years of working together I've appreciated Rob's help and expertise both on stage and in the studio."

— **House, Byron**, *musician/bass player/vocalist, Sam Band Music, Inc.*, worked directly with Rob at Sam Band Music, Inc.

— **Hannah Phaneuf**, *Grassroots Network Coordinator, Sugar Hill Records*, was with another company when working with Rob at Sam Band Music, Inc.

"I managed Sam Bush for three years and had the opportunity to work with Rob on a daily basis for those years. I found him to be extremely well organized, efficient and timely in his tour management position. He got the job done as it needed to be done. He also is an excellent monitor engineer and FOH as well. In short, he can pretty much do anything you need to get a show on the road. I also worked with him in putting together a live dvd and found his recording engineering to be top notch too. I count him as a friend now and look forward to working on another project with him in the future. I recommend him without hesitation."

"Rob is the consummate professional road manager/soundman as evidenced by the artists who'll settle for no one else. Like Richard Battaglia and the late Frank Edmonson, Rob makes sure his legendary charges sound their very best while being extremely friendly and flexible with the promoters and event producers who hire them. And he's less cranky than Phil Kaufman. TT"

Rob's decades-long experience in the on-tour technical arts, recording studio and tour management have made him a valuable asset for us in every capacity. In addition to a high level of expertise on live sound, live and studio recording and his great ears, Rob's tour management experience gives him a broad perspective in any role. He's a class-A professional possessed of an ideal temperament and great personality - terrific working with on-stage musicians, house technicians and artist management. It's a total pleasure any time we have the opportunity to work with him. I do not hesitate to give Rob my strongest unqualified endorsement in any role related to production/technical services.
